

Information on self isolation and work set

Whilst your child is self isolating, we want to ensure that they do not fall behind with their learning. Therefore, work will be set from each subject for the duration of their self isolation on Google Classroom. There are two Google Classrooms that students should use if they are self isolating:

1. Remote learning core subjects (this includes English, Maths and Science)
2. Remote learning additional subjects (this includes all other subjects)

The work from all subjects will be placed into these Google Classrooms and not the usual Google Classroom for each subject, within 48 hours. Whilst you wait for the work to be put onto the Google Classrooms, we ask that students use their timetable to find relevant work from each subject from one or more of the following online resources:

Oak National Academy <https://teachers.thenational.academy/>

BBC bitesize <https://www.bbc.co.uk/bitesize/secondary>

Seneca <https://senecalearning.com/en-GB/>

GCSE Pod <https://www.gcsepod.com/>

Hegarty Maths www.hegartymaths.com

Tassomai <https://www.tassomai.com/>

In addition, if your child has a revision guide for the subject, they can use this.

We expect your child to be following their school timetable and completing the work that is on the Google Classroom, for the duration of their self isolation. If there is an issue with access to a device or the internet, please let us know.

If you need to contact the school with regards the work that has been set, please contact the relevant faculty or subject leader:

Mathematics: Mr J Taylor

English: Ms S Hunnisett

Science: Mr G Weir

Sport and PE: Mr James Coulthard
