Uniform Policy

Date: agreed at FG on 3 May 2018

Purpose

- To establish that the school requires a school uniform according to a defined dress code.
- To communicate to parent/carers the expectation that they support the school in ensuring that their child is supplied with, and wears, the full school uniform.
- To ensure that KAR students comply with the school dress code.
- To communicate how the school will enforce the dress code.
- To provide a uniform which is practical for every day use, provides value for money, and is not determined by changes in fashion.

Principles

Equalities Statement

Over the past few years we have been working towards an improved understanding of the diverse nature of our community. Much of this work is in response to new legislation that places an increased duty on both schools and other settings. Legislation requires schools both to eliminate direct and indirect discrimination, victimisation or harassment and to promote equalities for students, staff and others using school facilities. These developments reflect the growing awareness of the need to view different equalities strands beneath one umbrella, rather than seeing them as separate factions competing with each other for time and resources.

In our school we work to ensure that there is equality of opportunity for all members of our community across a range of strands, which include: Race, Disability, Gender, Sexual Orientation, Religion and Age as well as any other factors which have the potential to cause discrimination, eg socio-economic factors.

An Equalities Impact Assessment (EIA) has been completed for this policy.

An EIA is a considered way of determining whether a policy, practice or project will affect all groups equally or whether it potentially may have a differential impact on one or more groups.
